EDUCATION

University of Illinois, Urbana-Champaign Ph.D. in Agricultural and Applied Economics	<i>2020-present</i>
Universidad EAFIT , Colombia Master of Science in Economics	<i>2015-2016</i>
Universidad Santo Tomás , Colombia B.A. in Economics (with honors)	<i>2008-2012</i>

FIELDS OF RESEARCH

Health Economics, Labor Economics, International Trade.

RESEARCH EXPERIENCE

University of Illinois, Urbana-Champaign Research and Teaching Assistant, Department of Agricultural and Consumer Economics	<i>2020-present</i>
The World Bank Research Analyst, Latin America and the Caribbean Chief Economist Office	<i>2017-2020</i>
The World Bank Consultant, South Asia Poverty Global Practice	<i>2016-2017</i>
Universidad EAFIT Research Assistant, Department of Economics	<i>2015-2016</i>
Centro de Estudios Regionales del Magdalena Medio (CER) Research Assistant	<i>2013-2014</i>

PUBLICATIONS

WORKING PAPERS

Automation, Economic Shocks, and Infant Mortality: Evidence from Mexico (*Job Market Paper*)

Abstract: In this paper, I investigate the impact of increased robotics in the United States on infant mortality rates in Mexico. Using a shift-share design that leverages variations in industrial robot usage and the employment composition of export-oriented *maquiladoras*, which predominantly employ women, I find that regions with higher exposure to U.S. automation experienced a greater rise in infant

mortality rates. The analysis shows that women in manufacturing faced more significant job losses than men, leading to reduced household income and access to employer-provided healthcare. This economic strain forced many women into self-employment, reducing time for childcare. Additionally, I present evidence suggesting that automation may increase risky behaviors, such as drinking and smoking, among uninsured women of childbearing age. These findings highlight the complex relationship between technological advancements and public health outcomes, emphasizing the need for policymakers to consider the cross-border effects of automation on global health and employment.

Trade Effects on Substance Abuse: Evidence from Colombia's Liberalization

Abstract: This paper investigates the effect of a structural tariff reform on substance abuse in Colombia. Using administrative data on the universe of emergency room visits and hospitalizations, I find that municipalities potentially more exposed to trade exhibit relative increases in total substance abuse. I show that these results are not explained by pre-trends in substance abuse rates, and that increases in substance abuse may be mediated by a stress channel through losses in the labor market. The findings hold when employing a broad array of robustness checks.

WORK IN PROGRESS

Welfare Effects of Landmines in Colombia (with *Gustavo Canavire-Bacarreza* and *Erdal Tekin*)

SCHOLARSHIPS, GRANTS AND HONORS

ACDIS Summer Research Fellowship, UIUC (U.S. \$6,000) (2023)
Travel Grant, Department of ACE UIUC (U.S. \$500) (2022)
Latin American and Caribbean Environmental Economics Program Research Grant (U.S. \$7,500) (2016)
Latin American and Caribbean Environmental Economics Program travel grant (U.S. \$1,200) (2017)
Master's full scholarship at Universidad EAFIT (2015-2016)
Best second-year paper, Ph.D. program in Agricultural and Applied Economics, UIUC (2023)
Cum Laude Distinction, Universidad Santo Tomás (2012)

TEACHING EXPERIENCE

University of Illinois, Department of Agricultural and Consumer Economics
Teaching Assistant

- ACE 240: Personal Financial Planning (spring 2022, fall 2022, spring 2023, fall 2023, spring 2024)
- ACE 349: Risk Management and financial planning across the life cycle (spring 2023, spring 2024)
- ACE 449: Retirement and benefit planning (fall 2021, spring 2023, spring 2024)

CONFERENCES AND SEMINARS

2024- International Policy and Development (IPAD) Workshop, UIUC
2023- AAEA Annual Meeting. Washington, DC
2018- 6th World Congress of Environmental and Resource Economics. Gothenburg Sweden
2017- Latin American and Caribbean Environmental Economics Association (LACEEP). Viña del Mar, Chile.

SKILLS AND LANGUAGES

Statistical Programming	Stata, R, Python
Software & Tools	ArcGIS, QGIS, LaTeX, Excel
Languages	Spanish (native), English (proficient)
